Re: A.B. 1760 – SUPPORT FOR PRIVACY FOR ALL

Dear Assemblymember Chau,

We are pleased to support A.B. 1760, sponsored by Assemblymember Buffy Wicks, as a vital addition to privacy protections in the state of California. We thank you for your commitment to the essential area of privacy, and your crucial role in the passage of the California Consumer Privacy Act (CCPA) last year.

We are a broad coalition of for-profit companies that share that privacy commitment and support the CCPA. All of us have California customers and we are currently subject to CCPA's requirements or may be subject to them in the foreseeable future. As companies that put user privacy at the core of our products and services, we also support legislation that builds on CCPA's foundation. Our relationship with our users is built on trust—trust that the data they provide to us and other companies will be used only in the ways they understand and expect.

A.B. 1760 holds all covered companies to that standard and makes sure that Californians' information is protected by default. It will give all Californians the knowledge and power to truly control their personal information, as well as the ability to practically exercise and legally enforce their privacy rights, all without being punished with higher prices or degraded service.

We appreciate and support your committee's important efforts to provide all Californians with the privacy rights they want and deserve. Thank you again for your leadership on this important issue.

Sincerely,
